International Conference on Gears 2023

Submit your abstract now!

Hand in your abstract covering related topics such as:

- Design, analysis and simulation of gears and transmissions
- Industrial applications
- Manufacturing
- Sustainability: resource efficiency, efficiency, circular economy
- Possibilities and potential of plastic and reinforced plastic gears
- Materials and tribology
- Simulation and testing

Deadline for abstract submission:

November 25th, 2022

Purpose

The International Conference on Gears and transmissions in Garching/Germany is an established platform for manufacturers of and researchers on gears and transmission systems. At the 10. issue of the conference in 2023 you can learn about the latest developments and research results from the powertrain industry and academia.

State-of-the-art gears transmit power and convert torque and speed with high efficiency and power density at low noise and hereby determine the performance of mechanical powertrains. The obligation, to adapt gears to new demands due to changed conditions such as the evolution of mobility and the energy revolution, continues to challenge the powertrain industry and requires further improvements of gears. The presentations at the conference will show that gears do have potential of increase power density and how gears can contribute to meet increasing requirements regarding sustainability, such as energy efficiency, resource consumption and circular economy aspects.

The exhibition accompanying the conference will offer the opportunity to monitor the state-of-the-art of powertrain applications and to network with your peers.

We are looking forward **receiving your submission until November 25th, 2022.**

With best regards
on behalf of the programme committee

Your presidency

Conference President:

 **Prof. Dr.-Ing. Karsten Stahl**, Full Professor, Institute of Machine Elements, Director, Gear Research Center (FZG), TUM School of Engineering and Design, Technical University of Munich, Garching, Germany

Conference Board/Vice President:

 **Dr.-Ing. Bernhard Bouché**, Director of Research and Development Mechanics, Getriebbau NORD GmbH & Co. KG, Bargteheide, Germany

Conference Board/Vice President:

 **Prof. i.R. Dr.-Ing. Dr. h.c. Bernd-Robert Höhn**, TUM emeritus of excellence, Gear Research Center (FZG), TUM School of Engineering and Design, Technical University of Munich, Garching, Germany

Conference Board/Vice President:

 **Dr.-Ing. Burkhard Pinnekamp**, Head of Central Technology, RENK GmbH, Augsburg; President, Research Association for Drive Technology (FVA), Frankfurt, Germany

Scientific Support

VDI Society for Product and Process Design

The VDI Society Product and Process Design (VDI-GPP) and its technical divisions provide all sectors with verified knowledge on the design of products and processes and their optimization in terms of quality and the time- and cost-benefit ratio.

Call for Submission of Contributions

Are you an expert in one of the areas of our topics? Then we call on you to make an active contribution to the success of the congress with a presentation.

Please submit a brief abstract of max. one A4 size sheet by November 25th, 2022 summarizing your presentation.

You can submit your paper at www.vdi-gears.eu.

Topics

1. Sustainability

- 1.1 Efficiency
- 1.2 Ressource efficiency
- 1.3 Environment friendly materials and lubricants
- 1.4 Circular economy (repair, reuse, recycle)

2. Gear applications

- 2.1 Transmissions for energy systems, e.g. power plants, wind turbines, water turbines etc.
- 2.2 Transmissions for mobility systems, e.g. gear boxes in the marine, aircraft, railway, automotive sectors and electric drivelines
- 2.3 Transmissions for production machinery, e.g. transportation in manufacturing lines
- 2.4 High speed applications
- 2.5 Gears in the context of digitalisation
- 2.6 Transmissions for new applications, e.g. medical technology, electric bicycles (pedelecs) and robots

3. Design, analysis and simulation of gears and transmissions

- 3.1 Gears (cylindrical, bevel and worm gears, beveloids) with optimized endurance, efficiency and/or NVH behavior
- 3.2 Optimized tooth profiles (e.g. asymmetric, cycloid gears, W/N-gears)
- 3.3 New materials, material properties from heat treatment, lubrication and coatings for improved properties (e.g. endurance, NVH, efficiency)
- 3.4 Tailored materials, graded materials, composite materials
- 3.5 Improved methods and/or simulation tools for lifetime prediction, NVH and efficiency

4. Gear production

- 4.1 Productivity increase by new concepts for machine and manufacturing processes with better simulation
- 4.2 Main time or throughput time – balancing of productivity and flexibility
- 4.3 Alternative, resource-efficient gear manufacturing chains (e.g. additive manufacturing, powder metallurgy, molding)
- 4.4 Gear manufacturing in context of digitalization and industry 4.0
- 4.5 New manufacturing methods for optimized gear and gearbox performance
- 4.6 New materials and heat treatment processes
- 4.7 Simulation of manufacturing processes
- 4.8 Innovative methods and measurement principles for quality inspection of gears

5. Testing and monitoring

- 5.1 New test methods and/or procedures for endurance, efficiency and NVH behavior
- 5.2 Correlation of system and component tests
- 5.3 Time-scaling strategies for fatigue tests (e.g. wind turbine transmissions)
- 5.4 Condition monitoring and predictive maintenance
- 5.5 Sensor integration

Submit your abstract now!

6. High performance plastic gears

- 6.1 Materials for plastic gears
- 6.2 Innovative plastic gear design
- 6.3 Testing of plastic gears
- 6.4 Calculation methods for plastic gears (life time, wear, temperature, TEHL, deflections)
- 6.5 Tribology of plastic gears

Types of Contribution

Your contribution can take the form of:

1. A full presentation:
If your paper is accepted you will be allowed to speak 20 minutes, with additional 5 minutes for discussion and the opportunity to respond to questions and comments from the audience.
2. A poster presentation:
The posters will be on view for discussion in the exhibition area.

Submission of Abstracts

- Title of the paper and/or poster
- An abstract summarizing your paper
- Information about the lecturer and co-authors: name, title(s), company address, department, affiliation, email, telephone and fax number
- In which topic area(s) your presentation should be listed
- A statement specifying what is new in your presentation
- A bibliography of your previous publications about this subject
- How you would like to present your paper upon acceptance (full or poster presentation)

Please note that abstracts and final papers will be only accepted if they are uploaded to the conference's website:

www.vdi-gears.eu

All submissions must be either Microsoft WORD (DOC or DOCX) or PDF files. **Your abstract must be received by November 25th, 2022.**

Based on the abstract, the program committee will decide on the acceptance and order of presentation in the conference program. If you receive notification of acceptance, you will also receive instructions concerning manuscripts and a question form to be returned to the VDI Wissensforum. The accepted papers (full papers and posters) will be printed in the conference proceedings provided to the conference participants.

Best Presentation Award for Young Engineers

The best lecture of a Young Engineer (up to 30 years old) will be honoured with the Best Presentation Award for Young Engineers "Gears 2023". Speakers, who would like to participate in this contest, are requested to state their date of birth with their contact details.

Schedule

- Deadline for submission of abstracts: **November 25th, 2022**
- Notification of acceptance: **Mid-February 2023**
- Final program available in: **May 2023**
- Deadline for submission of manuscripts: **June 2nd, 2023**
- Deadline for submission of final manuscripts for peer review and publication in the journal *Research in Engineering*: **March 24th, 2023** (www.springer.com/journal/10010)

Possibility to publish research results in a scientific journal

Publish your research results in a scientific journal

The scientific journal *Research in Engineering (Forschung im Ingenieurwesen)* gives you the opportunity to publish an extended version of your conference publications.

Expand your conference contribution by going into more detail about the underlying theories, methodology used and the results of your study. You can then submit your manuscript via the following link, www.editorialmanager.com/fiin, (online submission) taking the formal submission requirements into account.

If your contribution passes the initial publisher's review, it will be further reviewed by independent experts in a double-blind process (peer review). www.springer.com/journal/10010

Manuscripts for peer review must be submitted by March 24th, 2023, the latest.

Conference Fee

Speakers (one person per paper) will receive a 30 % discount on the regular conference fee. Discounts cannot be accumulated. Travel expenses will not be paid. Participants can visit the accompanying conferences free of charge.

The Munich Oktoberfest from September 16th to October 3rd, 2023!

Each year, the largest public festival in the world, the Oktoberfest, takes place in Munich. The famous Oktoberfest starts on Saturday, September 16th and ends on Tuesday, October 3rd, 2023. Participants will have the opportunity to extend their visit to the famous city and its surroundings for a couple of days. Munich offers a lot of places of interest such as the Marienplatz in the city center, Old and New Town Hall, Frauenkirche, Viktualienmarkt and Odeonsplatz.

Submit your paper now, visit the Oktoberfest after the conference and make your trip to Munich unforgettable!

Exhibition/sponsorship opportunities

Would you like to get face to face with the high-powered delegates attending this VDI congress and present your products and services to a specialist sector of your market?

For an optimum presentation of your company, make use of the exhibition held in parallel with the conference. Here you can meet industry decisionmakers – make your target contacts neatly and without a great deal of organisational outlay. Secure your stand space right at the heart of this industry rendezvous and/or use a sponsorship package specially tailored to your requirements to enable you to stand out more clearly and effectively from your competitors.

We can supply you with exclusive communication possibilities before, during and after the event.

Exhibitor and sponsor inquiries should be addressed to:
